

Palo Alto Networks to Spotlight Next-Generation Security Innovation At Ignite 2014

March 26, 2014

SANTA CLARA, Calif., March 26, 2014 /PRNewswire/ -- Palo Alto Networks® (NYSE: PANW), the leader in enterprise security, today announced more additions to the lineup of speakers and sessions for [Ignite 2014](#) – the largest gathering of enterprise security experts in the world.

More than half of this year's Ignite [sessions](#) will showcase how Palo Alto Networks customers are using a next-generation platform to solve their biggest security challenges, from protecting mobile infrastructure to guarding against advanced persistent threats (APT). Customer speakers represent a wide range of expertise, companies and industries, including:

Government: Center for Cyber Security Studies, United States Naval Academy and ISA99 Committee

Retail: eBay

Financial Services: Exeter Finance, Raymond James

Pharmaceutical/Life Sciences: Battelle Memorial Institute

Healthcare: Health Information Technology Services of Nova Scotia, Revera Inc., University of Oklahoma Health Sciences Center

Education: Waterloo Region District School Board, BYU Hawaii, McLean County Unified School District

Manufacturing: Motorola Solutions, ITT Corporation

QUOTE

"You'll hear plenty from Palo Alto Networks at Ignite 2014, but it's our customers who have the best stories to share. From enterprises and service providers to financial services and government agencies, they're tired of using yesterday's technologies to combat today's security threats. That's why they've come to us, and that's why we want you to hear from them directly."

Rene Bonvanie, CMO, Palo Alto Networks

New Special Sessions Just Added

Ignite attendees will experience 55+ technical sessions from security product experts and customers, keynote discussions from today's leading thinkers on cybersecurity, and hands-on training to build their security platform expertise, including 1-on-1 Expert Labs.

In addition to the customer sessions at Ignite, Rick Howard, Palo Alto Networks Chief Security Officer, will lead several sessions looking at the evolving role of the CISO and providing fresh perspective on cybersecurity intelligence gathering.

There also will be new sessions added to the agenda highlighting how the unique Cyvera technology, which was just [acquired](#) by Palo Alto Networks, can help customers protect endpoints from advanced cyber threats.

REGISTER: Ignite 2014 takes place March 31-April 2 at The Cosmopolitan in Las Vegas. Register [here](#).
